

Amendments to the Claims

This listing of claims will replace all prior versions and listings of claims in this application:

Listing of Claims

1-29. (Canceled)

30. (Currently amended) A portable electronic photo album comprising:

a structure that fits within a pocket-sized wallet, wherein integrated in the structure are:

a magnetic strip that includes credit card information, wherein the magnetic strip is operable to be swiped through a credit card reader;

an electronic display capable of displaying digital images; and

processing circuitry that is operable to display on the electronic display one or more user-provided digital images, wherein the processing circuitry is coupled to ~~the memory and~~ the electronic display; and

a connector component that ~~couples~~ is operable to couple the photo album to a user device, wherein:

the user device includes a second display component that is separate from the electronic display of the ~~portable electronic~~ photo album; and

the user-provided digital images are downloaded from the user device.

31. (Previously presented) The portable electronic photo album of claim 30, further comprising:

a memory card for storing the one or more user-provided digital images.

32. (Currently amended) The portable electronic photo album of claim 30, further comprising a display memory,

wherein the processing circuitry provides data from a memory card to the display memory for ~~display~~ displaying on the electronic display.

33-45. (Canceled)

46. (New) The portable electronic photo album of claim 30, further comprising:

at least one user input device for advancing which user-provided digital image is displayed on the electronic display.

47. (New) The portable electronic photo album of claim 30, wherein the electronic display comprises a substantially flexible display.

48. (New) The portable photo album of claim 30, wherein:

the connector component comprises a physical connector that is metallic; and

the user-provided digital images are downloaded via a cable connected to the physical connector.

49. (New) The portable photo album of claim 30, wherein:

the connector component comprises a physical connector mounted to the housing structure; and

the user-provided digital images are downloaded via a cable connected to the physical connector.

50. (New) The portable photo album of claim 30, wherein:

the connector component is a wireless port; and

the user-provided digital images are downloaded wirelessly via the wireless port.

51. (New) The portable photo album of claim 30,
wherein:
the connector component comprises an infrared I/O
port; and
the user-provided digital images are downloaded via
the infrared I/O port.
